FREE WEBINAR

AI Without Governance?

AI Without Governance:

The risks are real. The solutions are clear.

Join us for an insightful session on why AI needs governance — and how ITIL v5 helps build responsible, trusted and future-ready AI systems.

SPEAKER

David Cannon

Director :PeopleCert

David Cannon is a globally recognized expert in IT management, digital transformation, and digital strategy, with over 30 years of industry experience. He has co-authored five ITIL books and held leadership roles at Forrester, Hewlett-Packard, and BMC Software.

Date	Time	Platform	For
