Building a Smarter Future.

FREE WEBINAR | **For Faculty**

AI Without Governance?

The risks are real. The solutions are clear.

Join us for an insightful session on why AI needs governance — and how ITIL v5 helps build responsible, trusted and future-ready AI systems.

Date	Time	Platform	For
28th Oct 2026 (Wednesday)	**12:30 to 1:30** (IST)	**Online** (Microsoft Teams)	**Faculty**

Webinar Topics

1. **Why AI Governance matters**
   From innovation to responsibility — why governance is essential.
2. **Why University should care**
   Protecting trust, reputation and long-term value.
3. **Practical framework for governing AI adoption**
   From policy to practice — turning principles into action.
4. **ITIL AI Governance framework and Governance perspectives**
   People, process, technology and trust.
5. **ITIL AI Governance. Improvement model**
   Measure. Improve. Create lasting value.
6. **Balancing opportunity and risk**
   Innovation with responsibility.
7. **Why this matters to every academic stakeholder**
   Students. Faculty. Institutions. Society.

Be ready. Be relevant.
