

SFJ Business Solutions Pvt. Ltd

Your Tech Partner for Skilling Next Gen Youths &
Working Professionals

CSR Donor Strategy to Impact

What We Do - Fostering Skilled Talent for an AI-Powered Global Economy

B2B - Reskilling

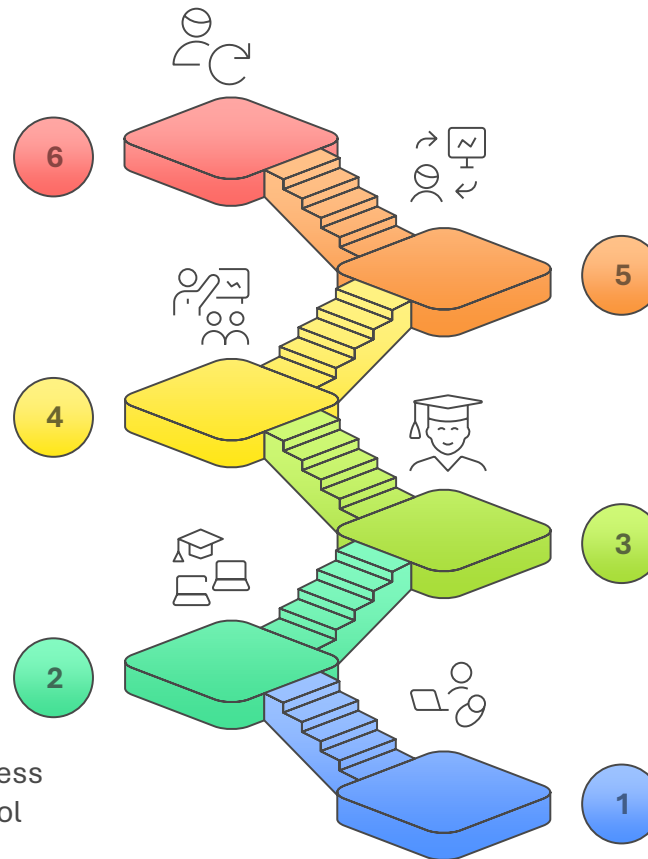

Helping professionals adapt to new roles and technologies with global certifications.

B2B – Upskilling professionals

Providing advanced training to working professionals for career growth.

CSR - Digital Literacy for Global Students & Teachers

Enhancing digital awareness and literacy among School students and Teachers

B2B - Cross-Skilling

Enabling professionals to acquire skills in diverse fields with Global Certifications.

B2I & B2G - Employability for Graduates & Postgraduates

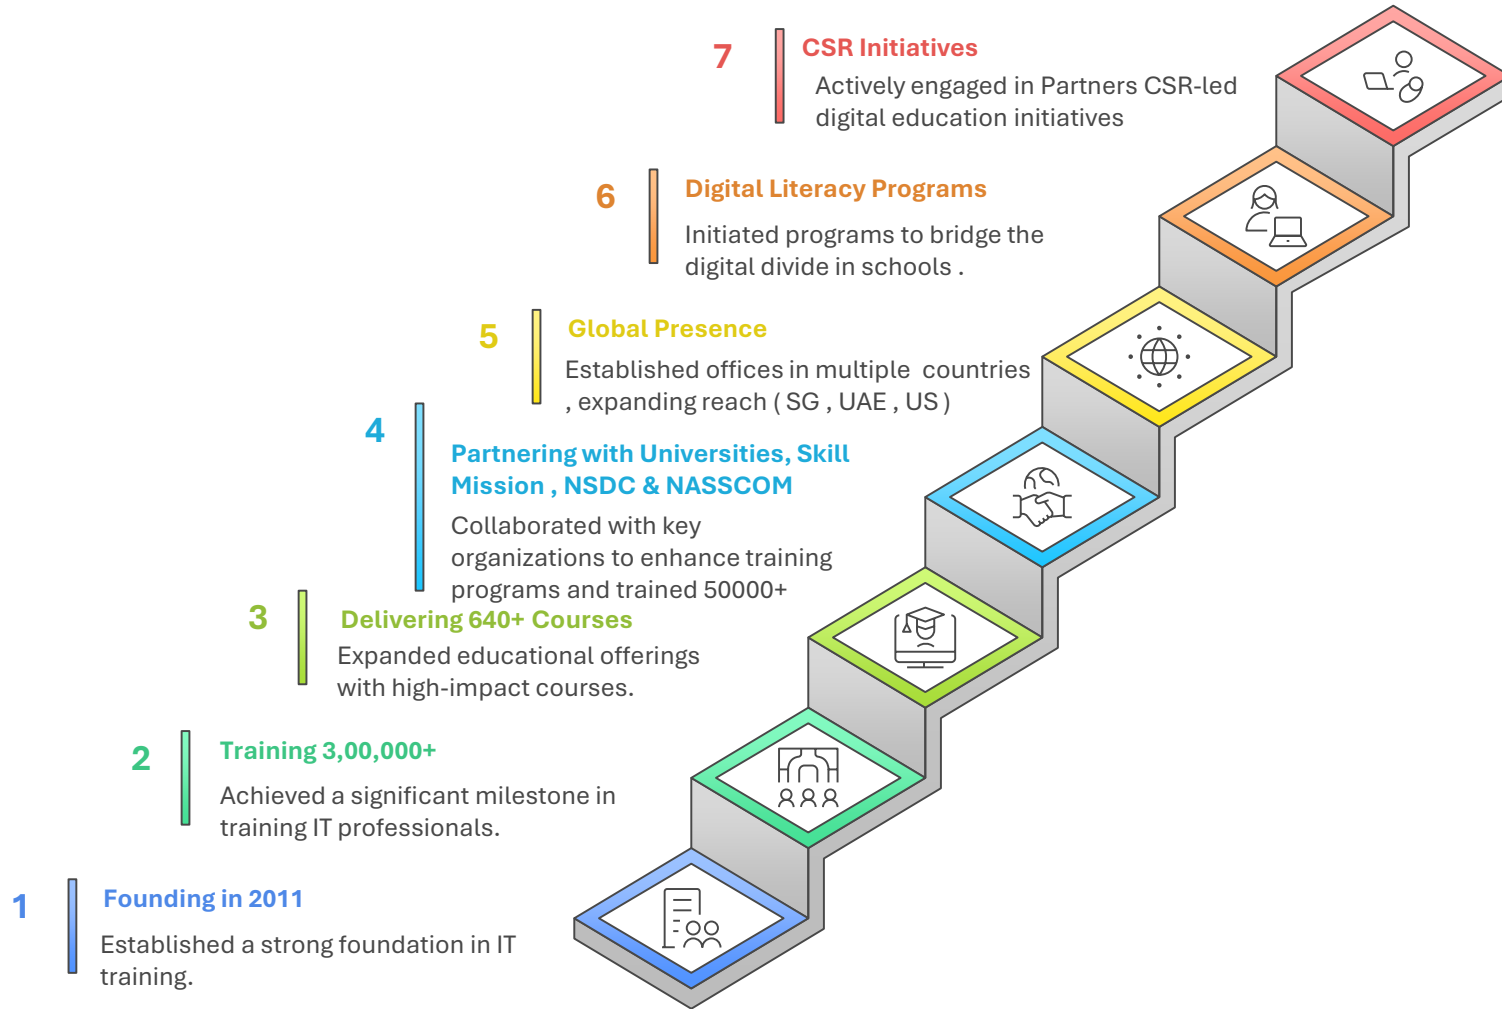

Equipping Polytechnic, College Graduates and Postgraduates with Industry-Relevant Skills through Expert Faculty to Succeed in the Evolving Job Market.

Skilling Youths

Equipping young individuals with essential tech skills for future readiness.

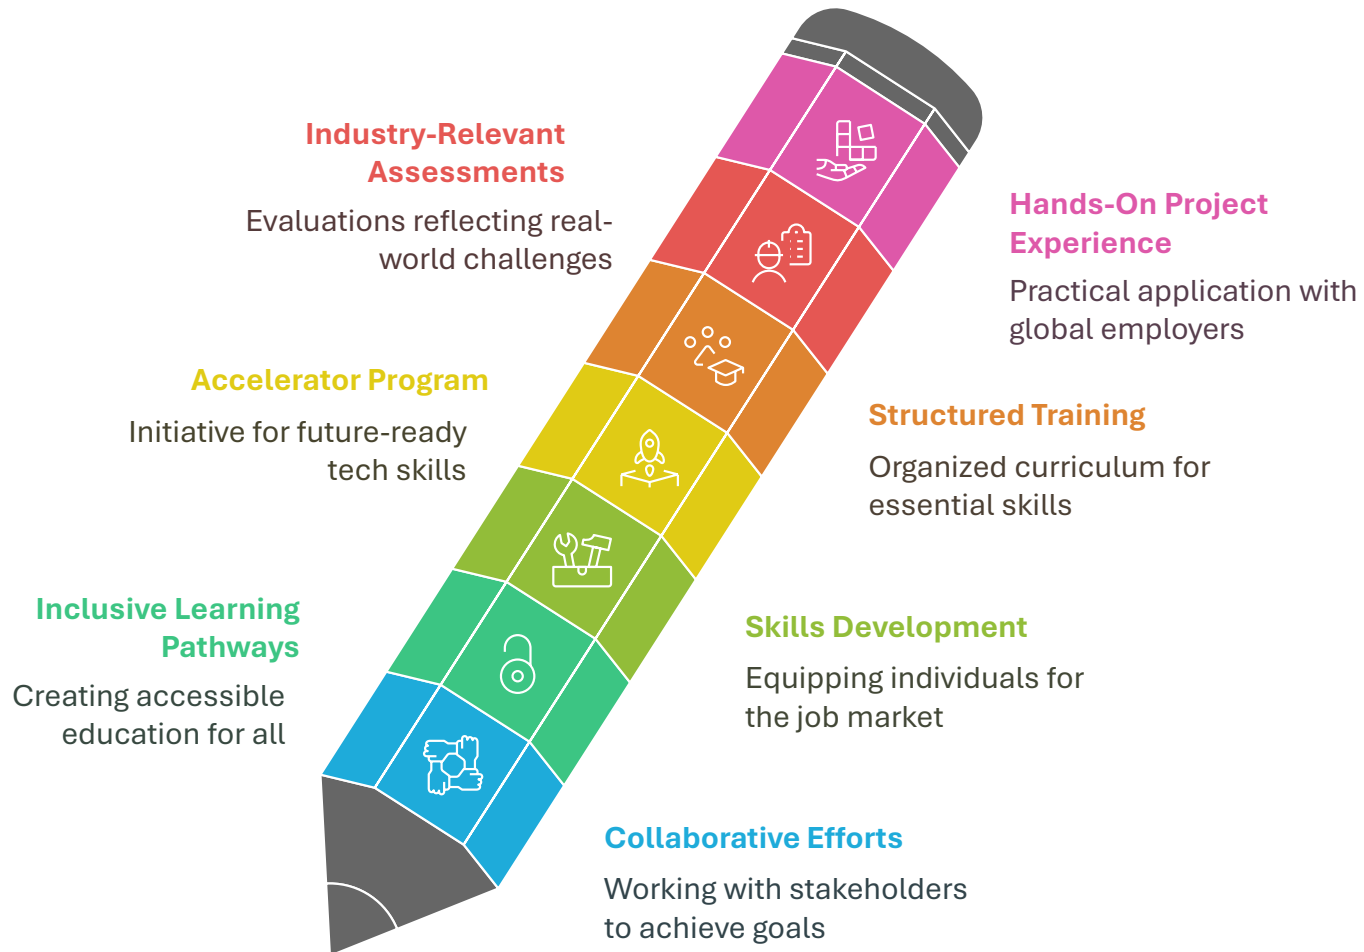

Journey to Global Talent Empowerment

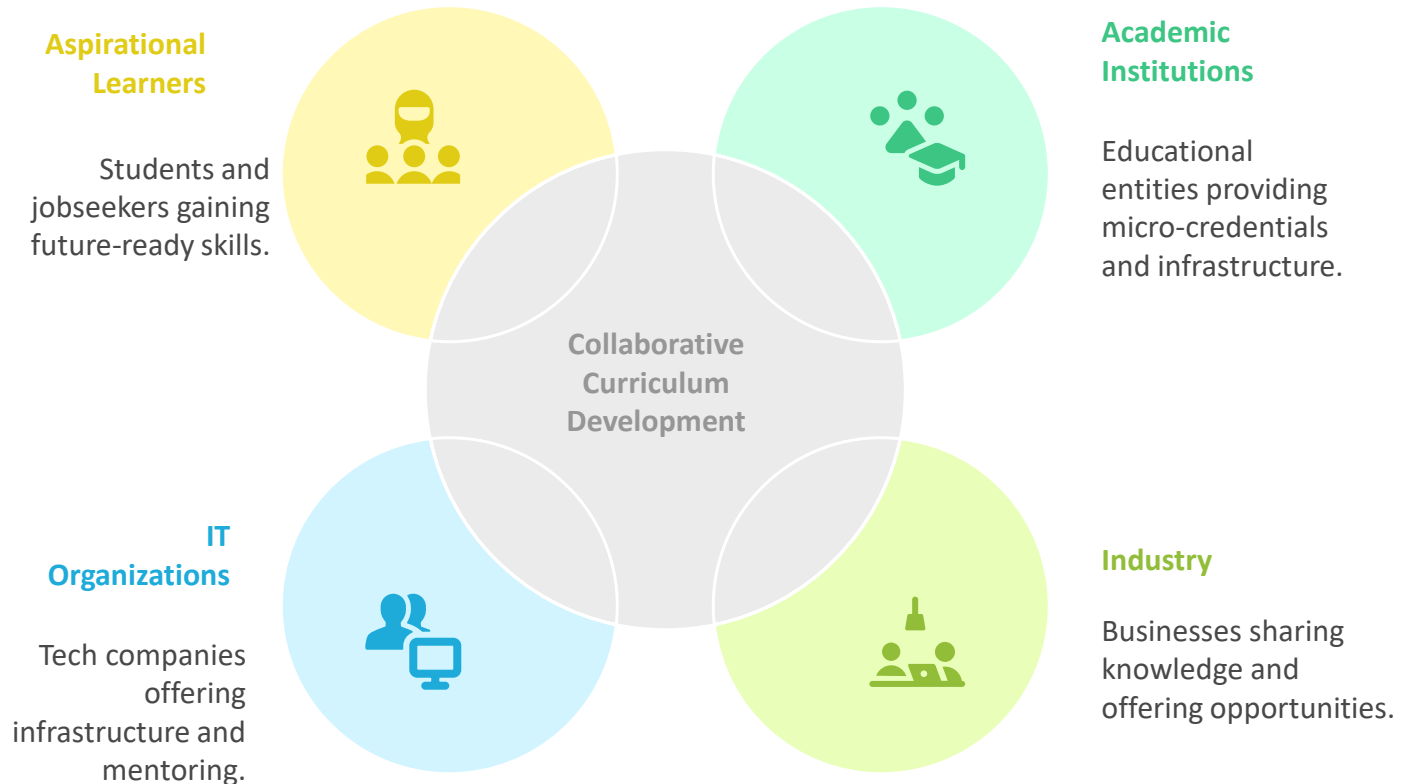

Empowering Students Through AI Powered Skilling

Collaborative Curriculum Development

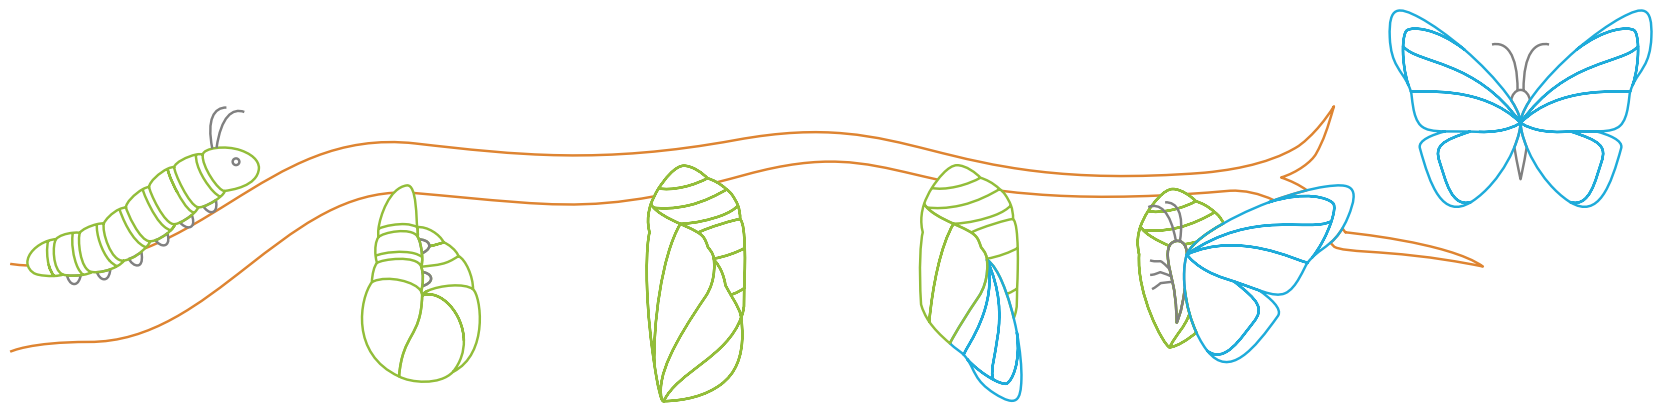

Which training method should be used?

Training Lifecycle Management

Initial Candidate

Lacking specific industry skills

Personalized Assessments

Identify strengths and weaknesses

Structured LMS Learning

Guided educational path

Learning modules designed to align with **job roles**

Expert-Led Sessions

Interactive, collaborative environment

Comprehensive **instructor-led sessions**, continuous mentorship, and hands-on **capstone projects** to reinforce practical learning.

Continuous Evaluation

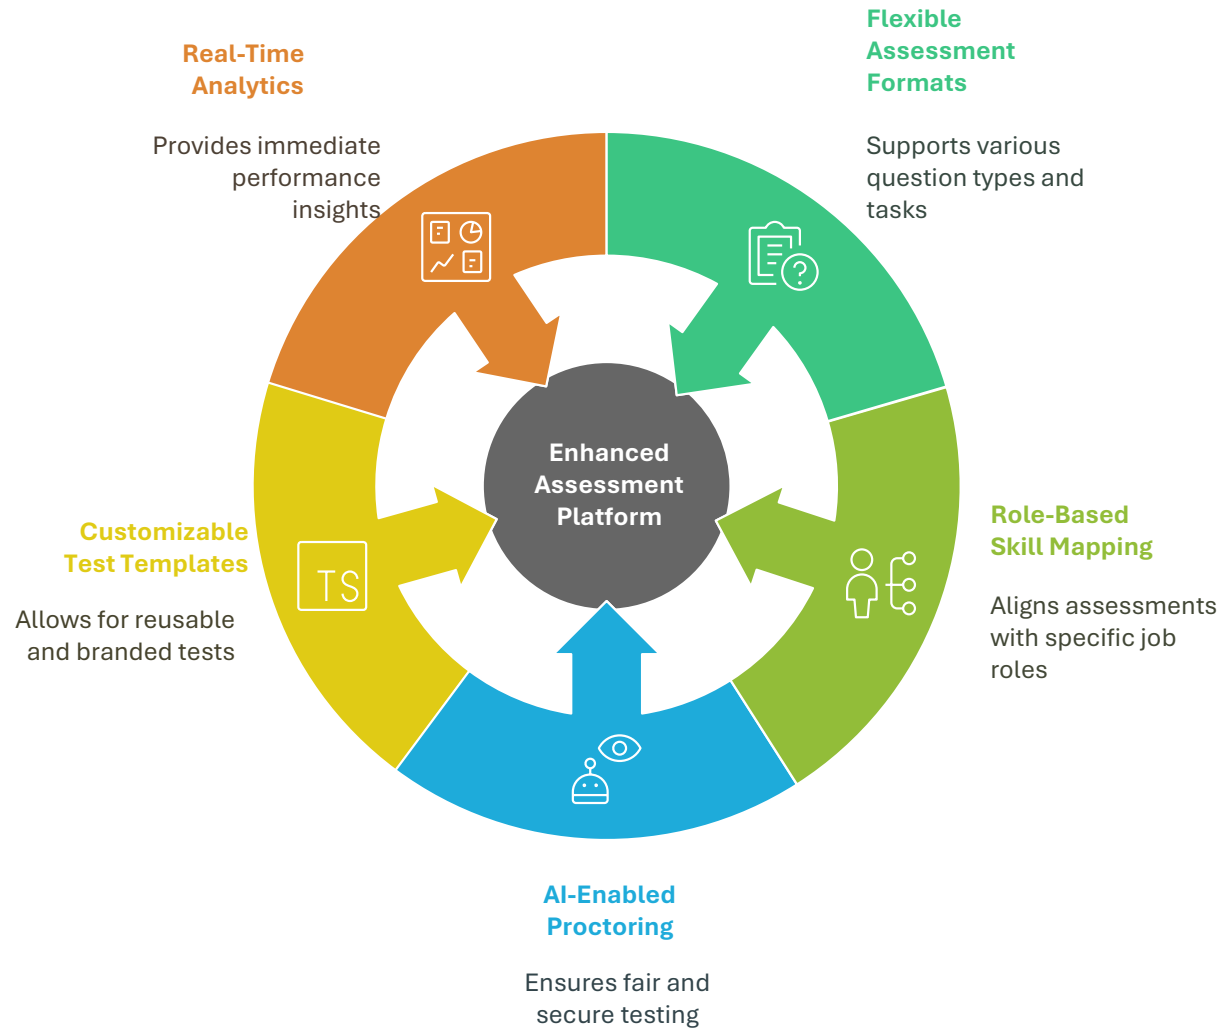

Track progress and adjust

Seamless execution, tracking, and reporting through the **SFJ Learning Management System (LMS)**.

Employable Candidate

Industry-ready with job placement

Key Features AI Assessment Platform

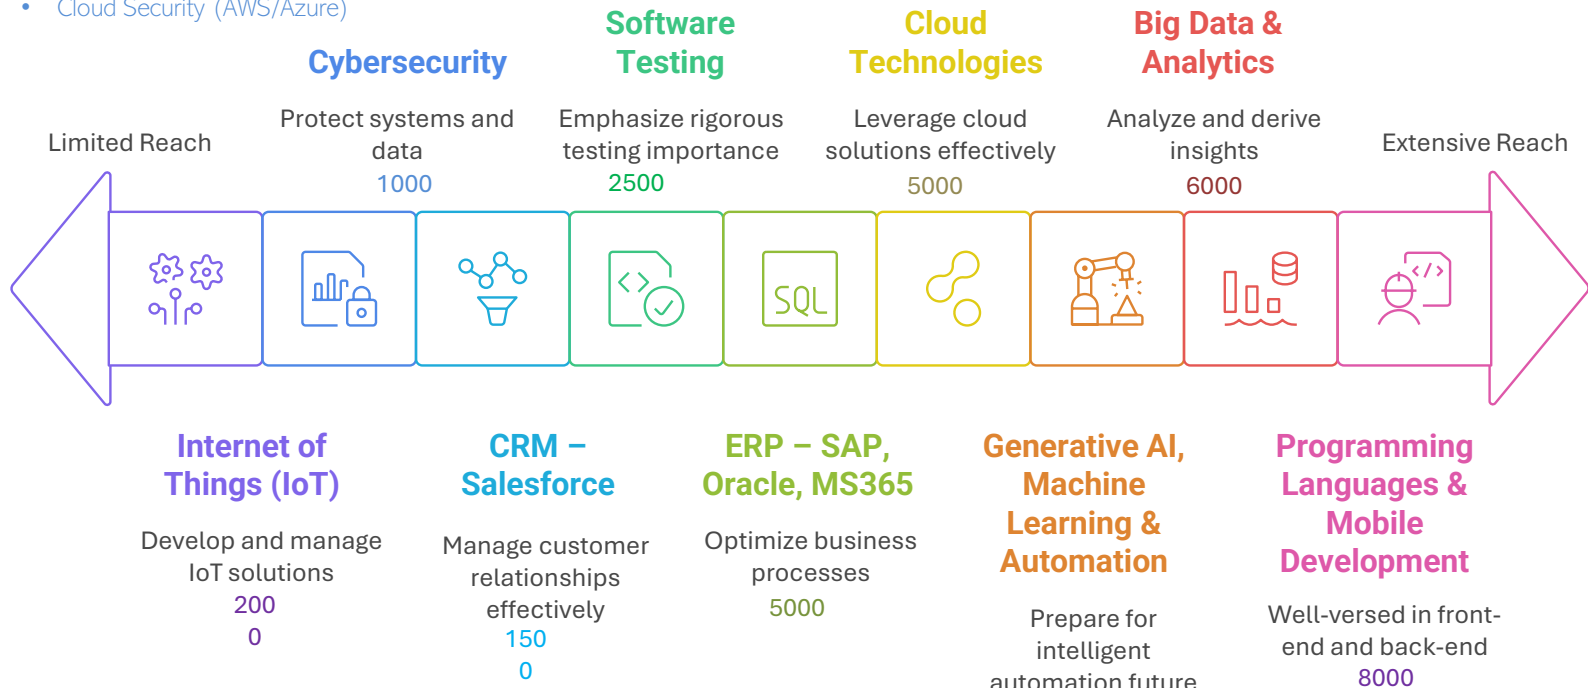

Training programs ranked by professionals trained in 2024 (35000 Learners)

- Ethical Hacking Methodology
- Vulnerability Assessment & Penetration Testing (VAPT)
- Security Operations Center (SOC)
- Web App Security
- Malware Analysis & Forensics
- Threat Intelligence & Dark Web Monitoring
- Cloud Security (AWS/Azure)

- Selenium – Web automation (Java, Python, C#) ,
- Appium-Mobile App Testing

- Platform ,
- Integration ,
- Microservices ,
- Devops & CI /CD
- Containerization

- Tableau ,
- Power BI ,
- Apache Superset ,Kibana (with Elasticsearch)

- CompTIA Server+, Network+, Security+
- AWS / Azure / GCP Infrastructure Certifications
- Cisco CCNA / CCNP
- VMware VCP / VCAP
- Red Hat RHCSA / RHCE
- Microsoft Certified: Azure Admin Associate

- Salesforce Administrator
- Salesforce Developer
- Salesforce Technical Architect
- App Builder
- Integration Specialist
- Sales CPQ
- SF Community & Commerce Mktng , Service Cloud

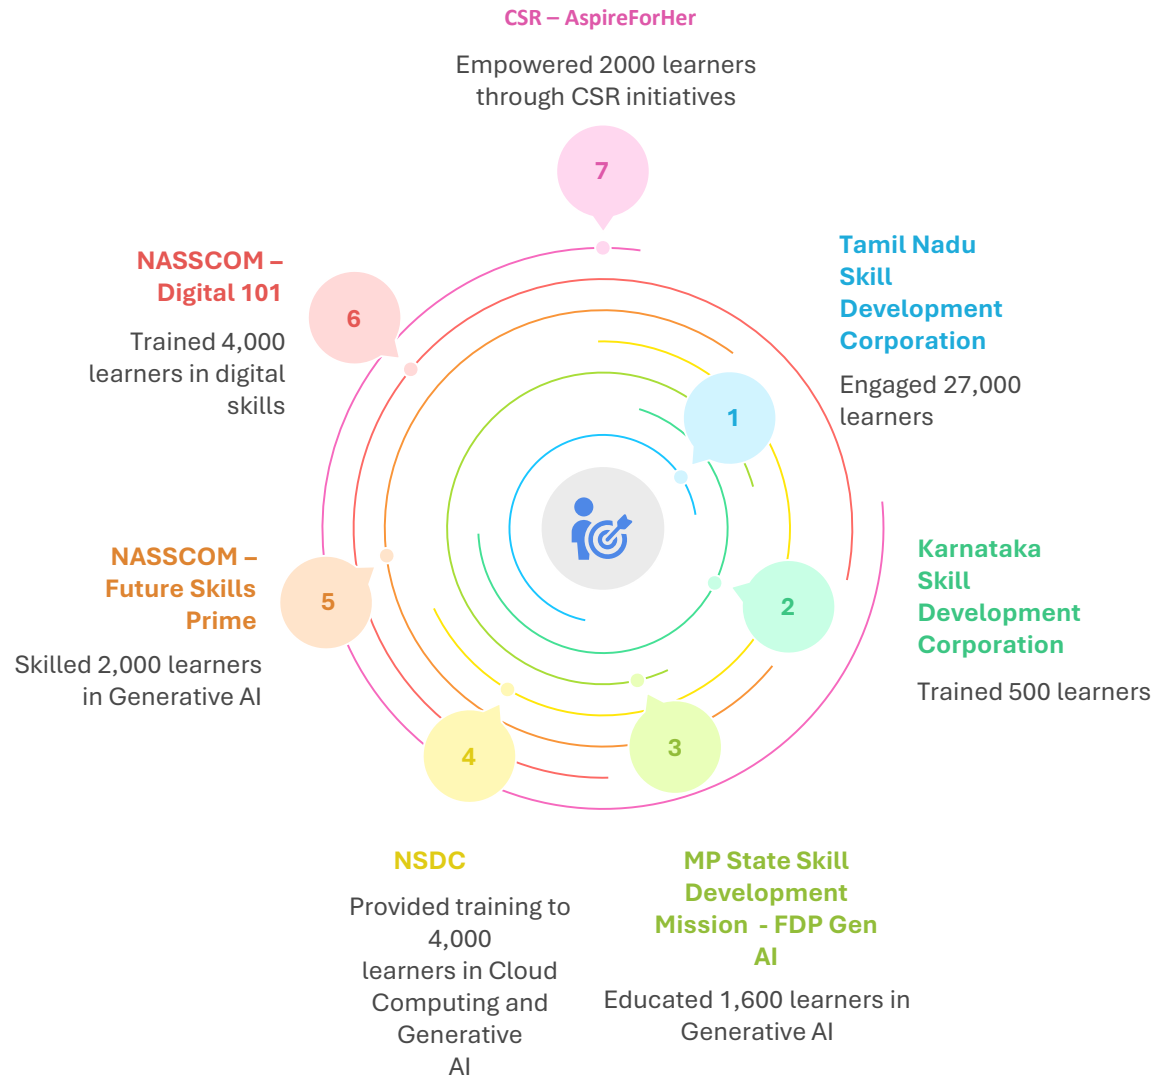

- Generative AI Practitioner
- Prompt Engineer
- LLM Developer
- GenAI Application Builder

- UiPath Automation Anywhere
- Blue Prism
- Power Automate
- Electro Neek

- Python (PySpark, Pandas, NumPy)
- Scala (for Spark)
- Java (for Hadoop MapReduce)
- R (for Data Analysis)
- Java Full Stack
- .Net Full Stack
- C# , PL/SQL , Mainframe

Q & A

Training Modules - IT
& FinTech for Gen AI
for School Students ,
Polytechnic UG & PG
Students , Lecturer and
Professors

AI Skills Development / Awareness Pyramid for School Students and Teachers

SAP Training

Functional Training

Expertise in FI, CO, MM, SD, PP, CRM modules.

S/4HANA Consultant

Expertise in FI, MM, SD, PP on S/4HANA.

Fiori/UI5 Developer

Expertise in UX design, front-end development.

HANA Administrator

Expertise in HANA DB tuning, backup, security.

Technical Consultant

Expertise in ABAP, BASIS, PI/PO, BTP, HANA.

BI/BW Developer

Expertise in BW/4HANA and data modeling.

Integration Specialist

Expertise in CPI, API, Middleware tools.

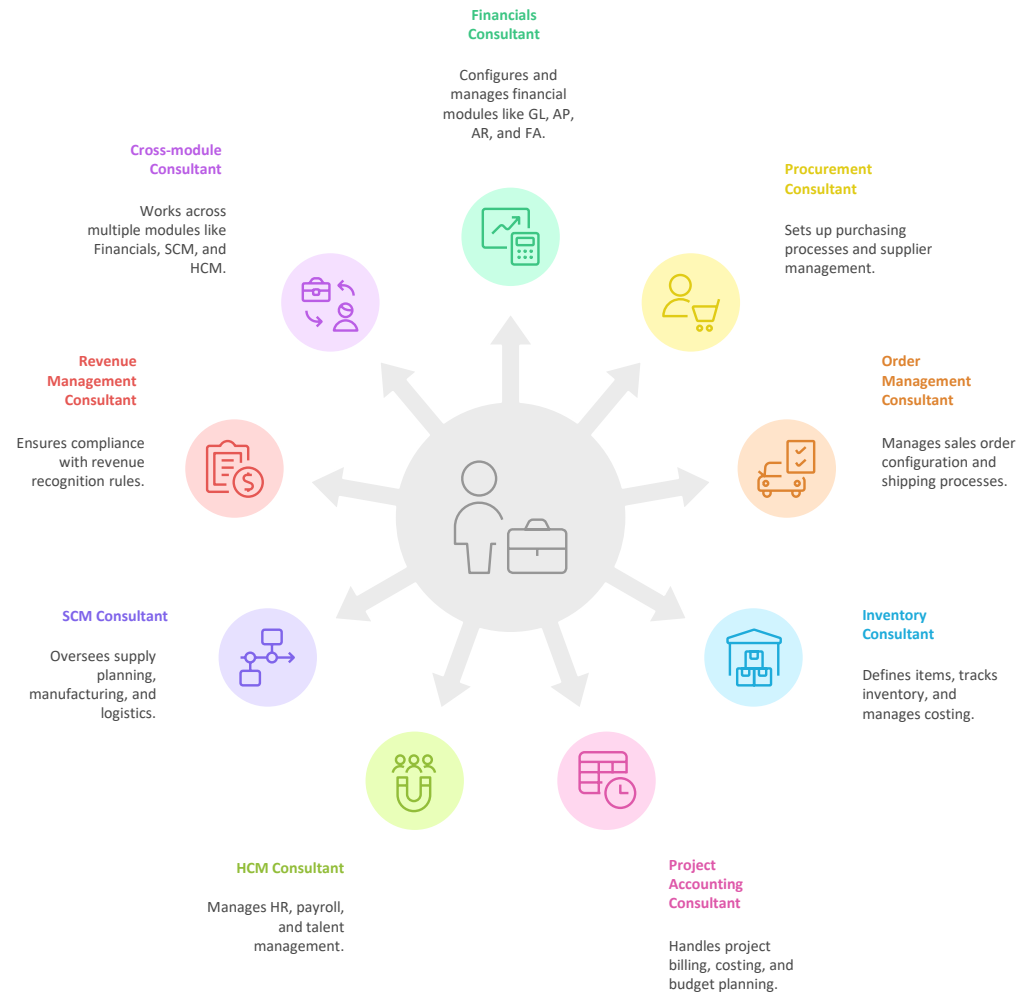

BTP Developer

Expertise in building cloud-based SAP applications.

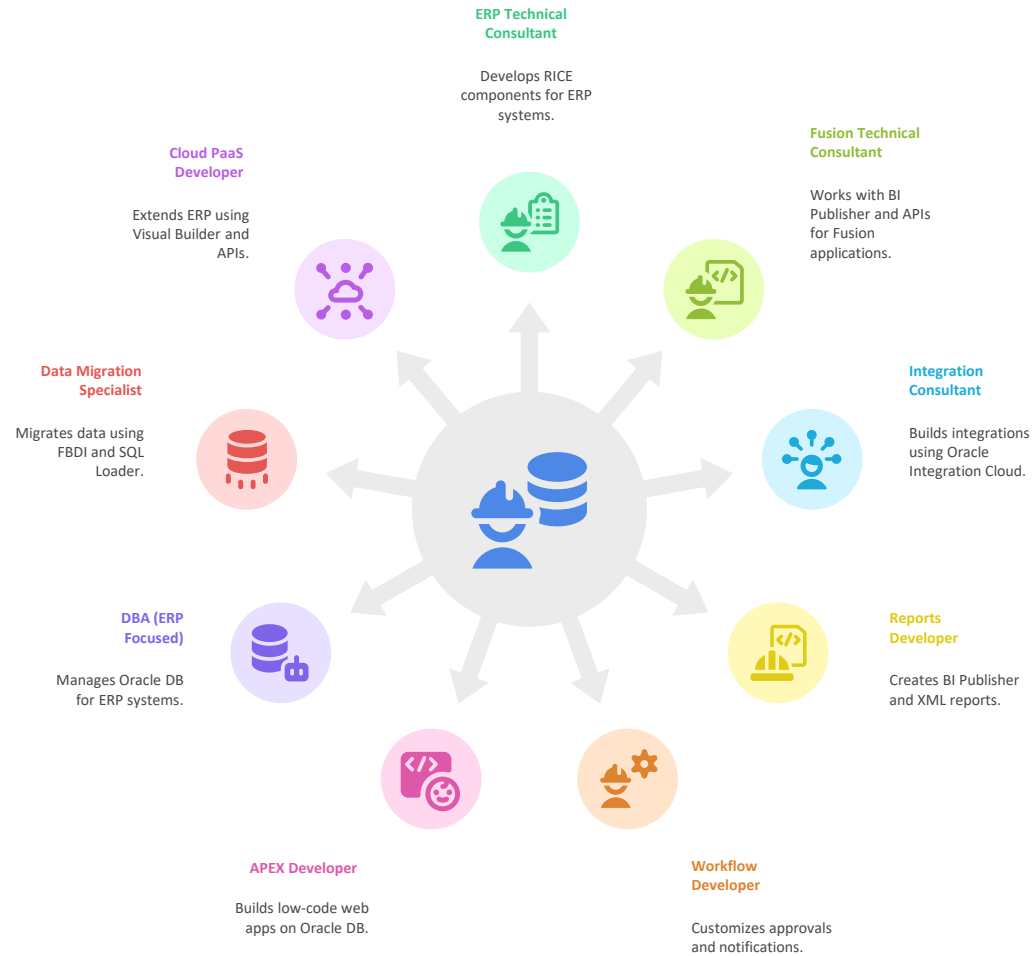

Oracle Functional Trainings

Oracle Technical Consultant Trainings

MS Dynamics 365 Functional Training Modules

Dynamics 365 Sales

Manage sales processes and customer relationships.

Provide excellent support and resolve customer issues.

Dynamics 365 Customer Service

Dynamics 365 Field Service

Manage on-site service and mobile workforce efficiently.

Automate marketing campaigns and generate leads effectively.

Dynamics 365 Marketing

Dynamics 365 Project Operations

Streamline project management from sales to invoicing.

Manage employee data, payroll, and benefits seamlessly.

Dynamics 365 Human Resources

Dynamics 365 Finance

Automate financial processes and gain insights.

Optimize supply chain operations and logistics efficiently.

Dynamics 365 Supply Chain Management

Dynamics 365 Commerce

Deliver seamless omnichannel experiences to customers.

Manage finances, operations, and sales for SMBs.

Dynamics 365 Business Central

MS Dynamics 365 Technical Trainings

Power Platform

Tools like Power Apps and Automate.

Developer tools for Dynamics 365 development.

Dynamics 365 Toolkit

Dataverse

Common Data Service for Dynamics 365.

Web Services & API for Dynamics 365.

Dynamics 365 API

AL Language

AL Language & Extensions for Business Central.

Azure DevOps for Dynamics 365 development.

Azure DevOps

Power BI Embedded

Power BI Embedded in Dynamics 365.

Security & Role-Based Access in Dynamics 365.

Security & Access

Azure Functions

Azure Functions / Logic Apps integration.

Industry-Specific Trainings

Consumer Products

Emphasizes e-commerce tools, inventory management, and demand forecasting

Aerospace and Defence

Focus on cybersecurity, CAD/CAM software, and AI in surveillance

Agribusiness

Emphasizes precision agriculture, data analytics, and blockchain

Automotive

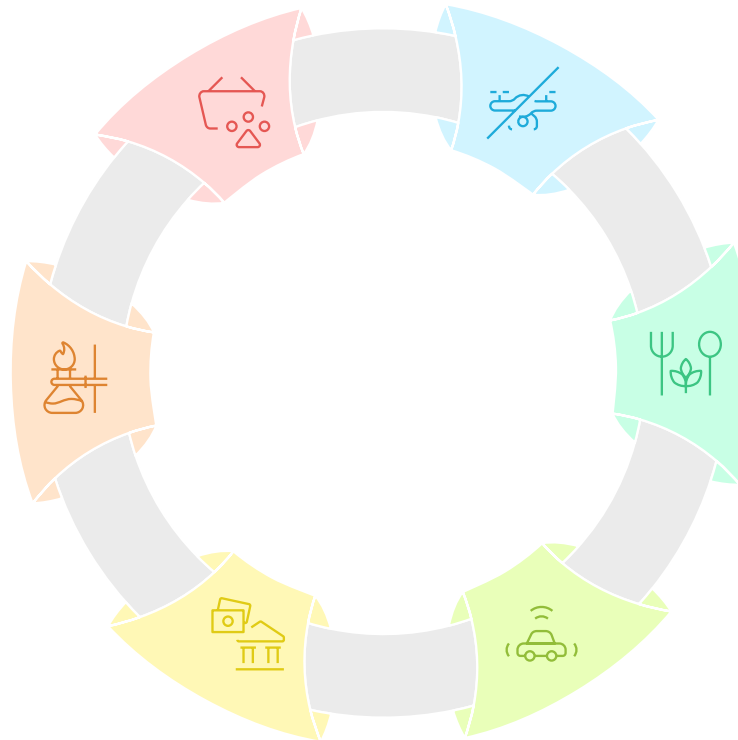

Highlights EV technology, embedded systems, and smart factory tech

Chemicals

Focuses on process automation, simulation tools, and plant safety

Banking

Covers core banking software, data analytics, and AI in fraud detection

Trainings Programs Across Sectors

Industrial Manufacturing

Focuses on Industry 4.0 tools, predictive maintenance, and digital twins

Higher Education and Research

Includes learning management systems, AI in education, and research data management

High Tech

Features DevOps, cloud platforms, and AI/ML technologies

Construction and Real Estate

Focuses on BIM, project management software, and smart building systems

Defence and Security

Emphasizes cyber intelligence, AI in surveillance, and secure communication

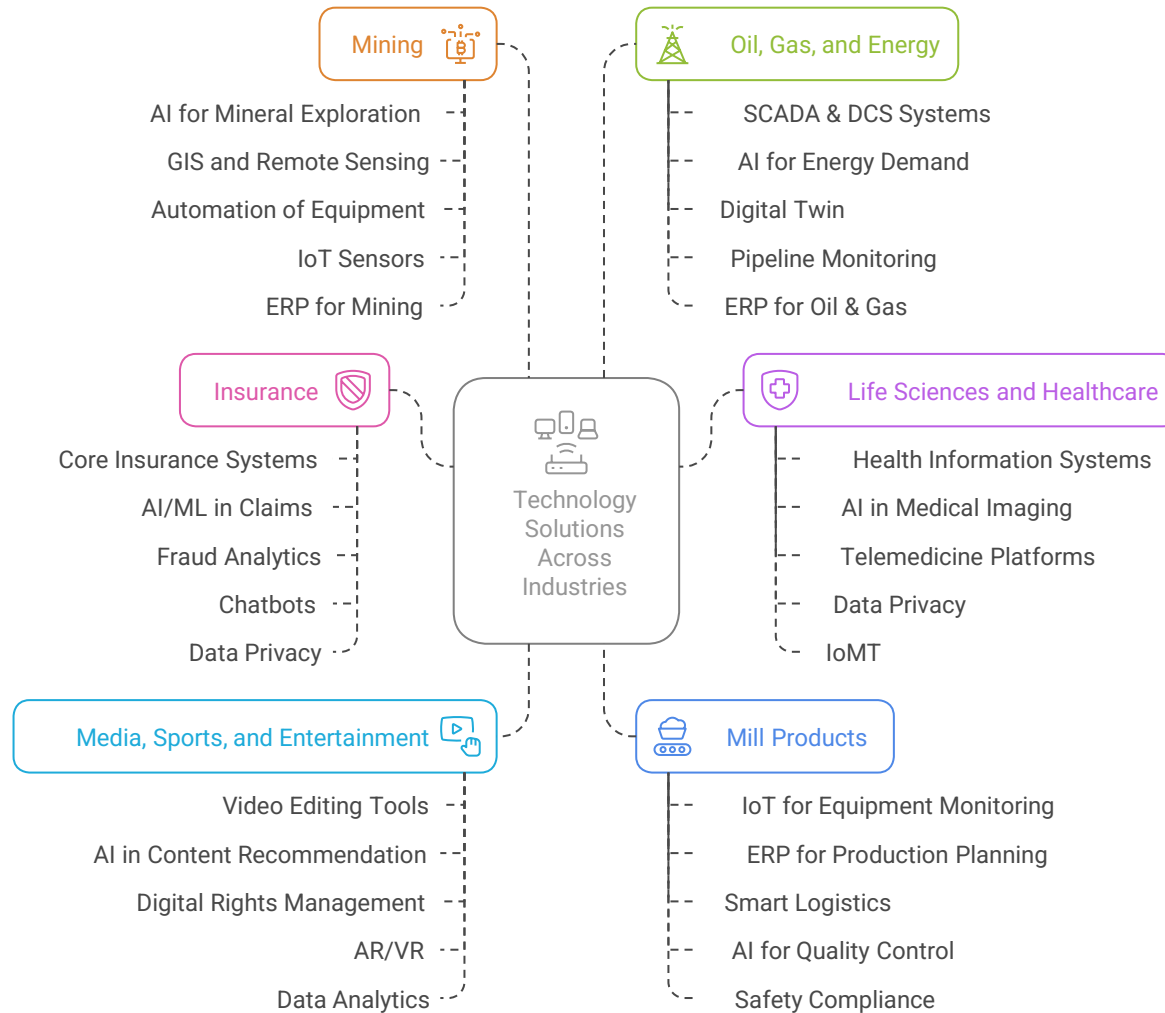

Government

Highlights e-governance platforms, cybersecurity training, and AI for public service

Training Solutions Across Industries

Industry-Specific Trainings

Comprehensive BFSI Training Program (20000 Learners)

Functional & Strategic Roles

Covers strategic and operational roles

Retail & Core Banking Roles

Focuses on traditional banking roles

Tech-Enabled & Digital Roles

Emphasizes technology-driven roles

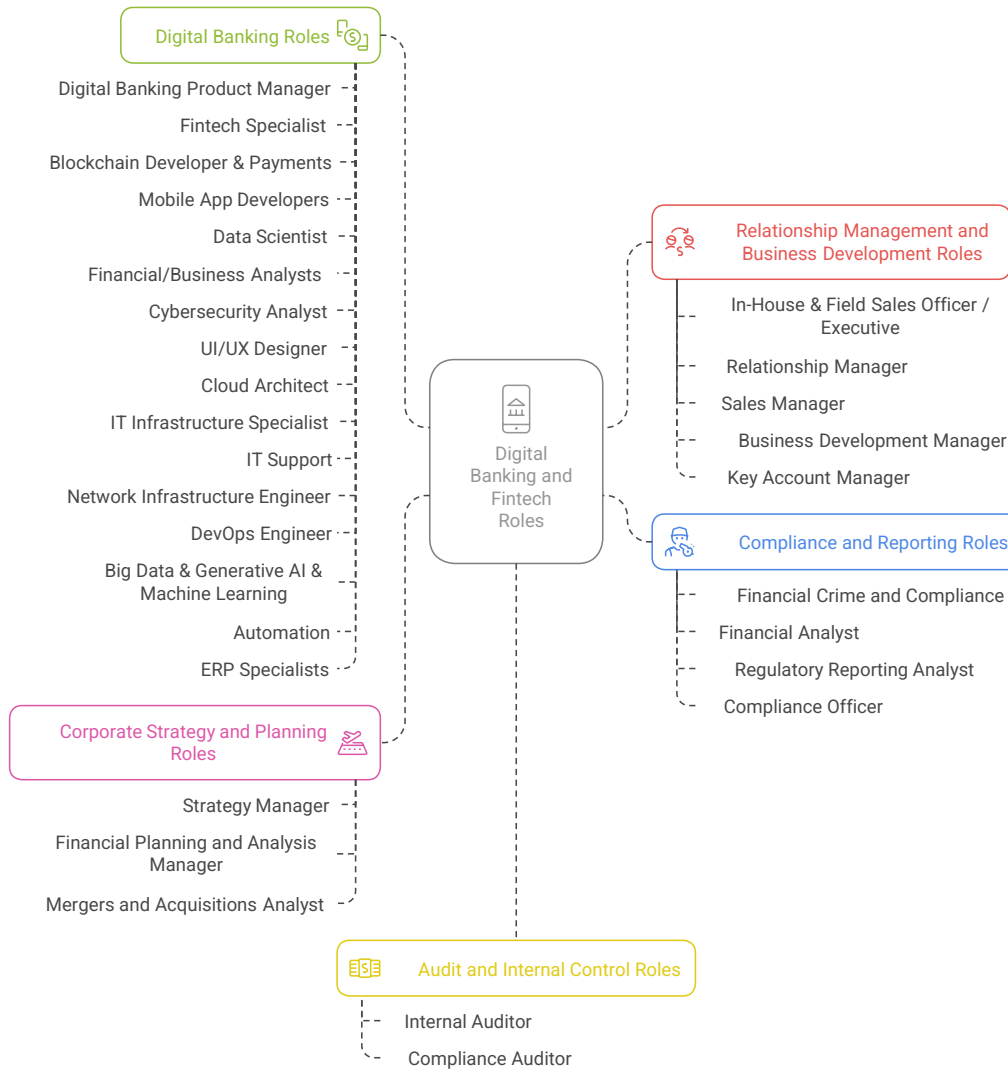

BFSI Sector Training Programs

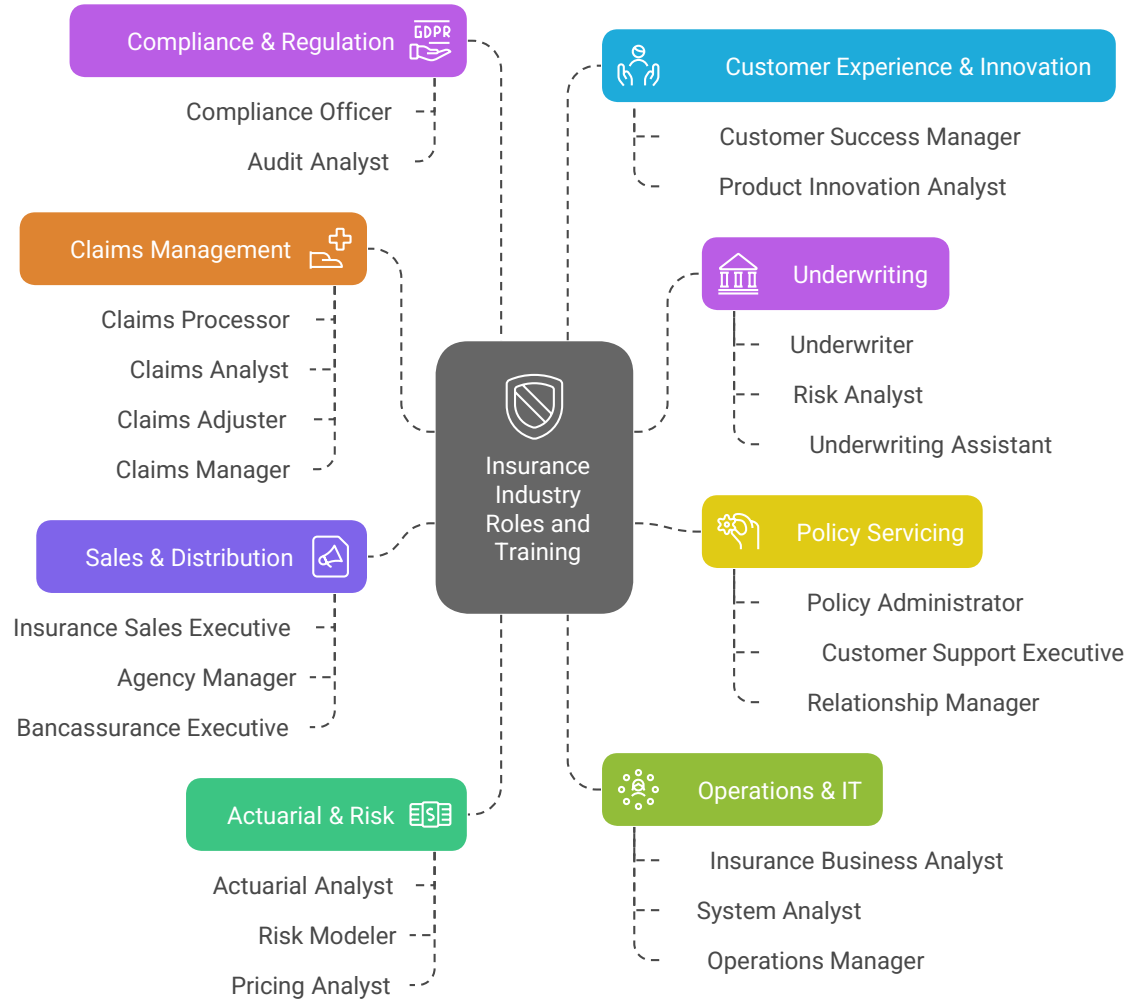

Trainings in Digital Banking and Fintech

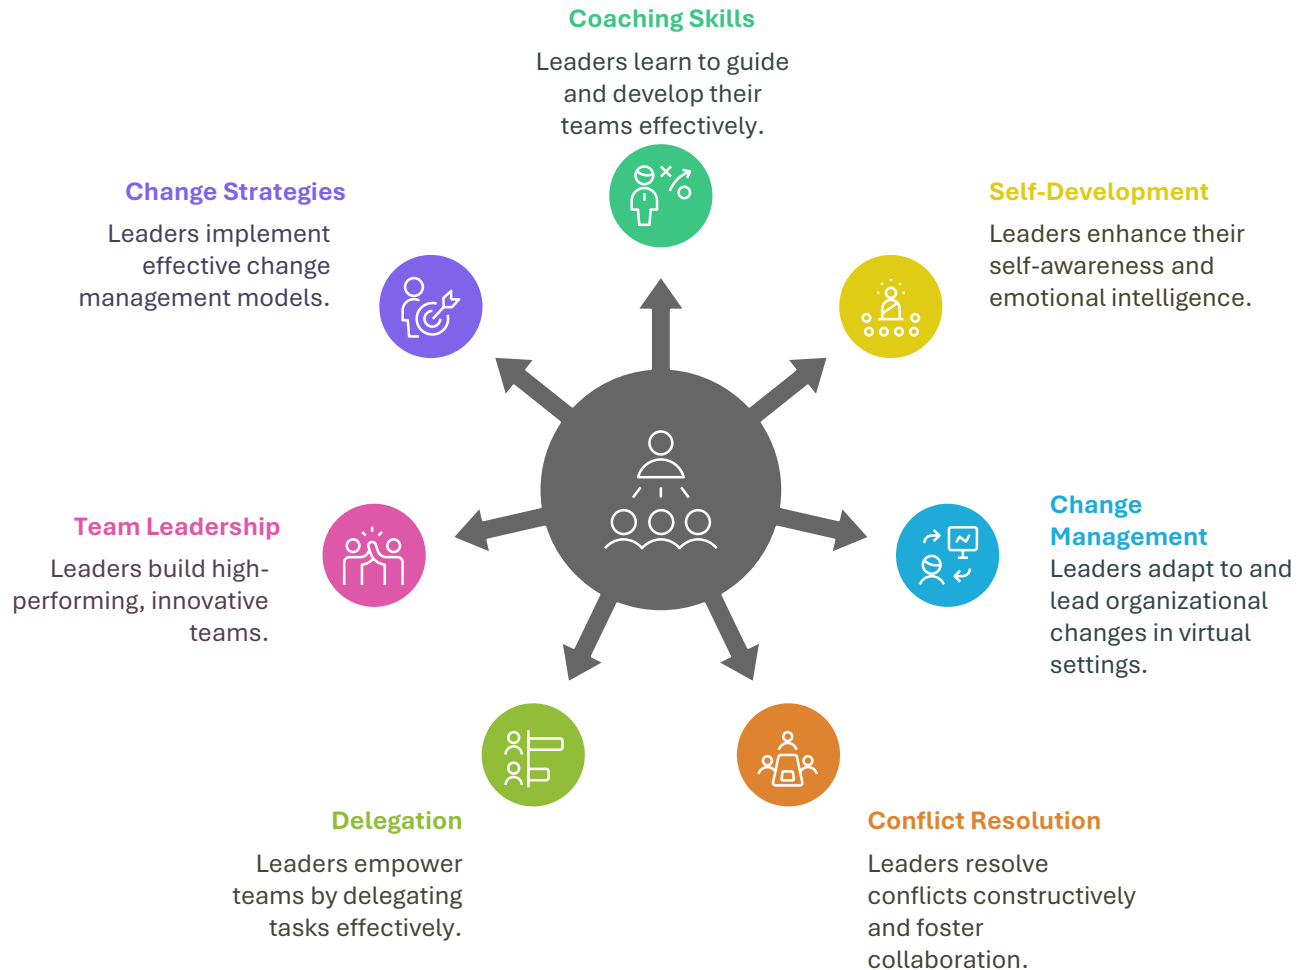

Insurance Industry Training Programs

Leadership Trainings

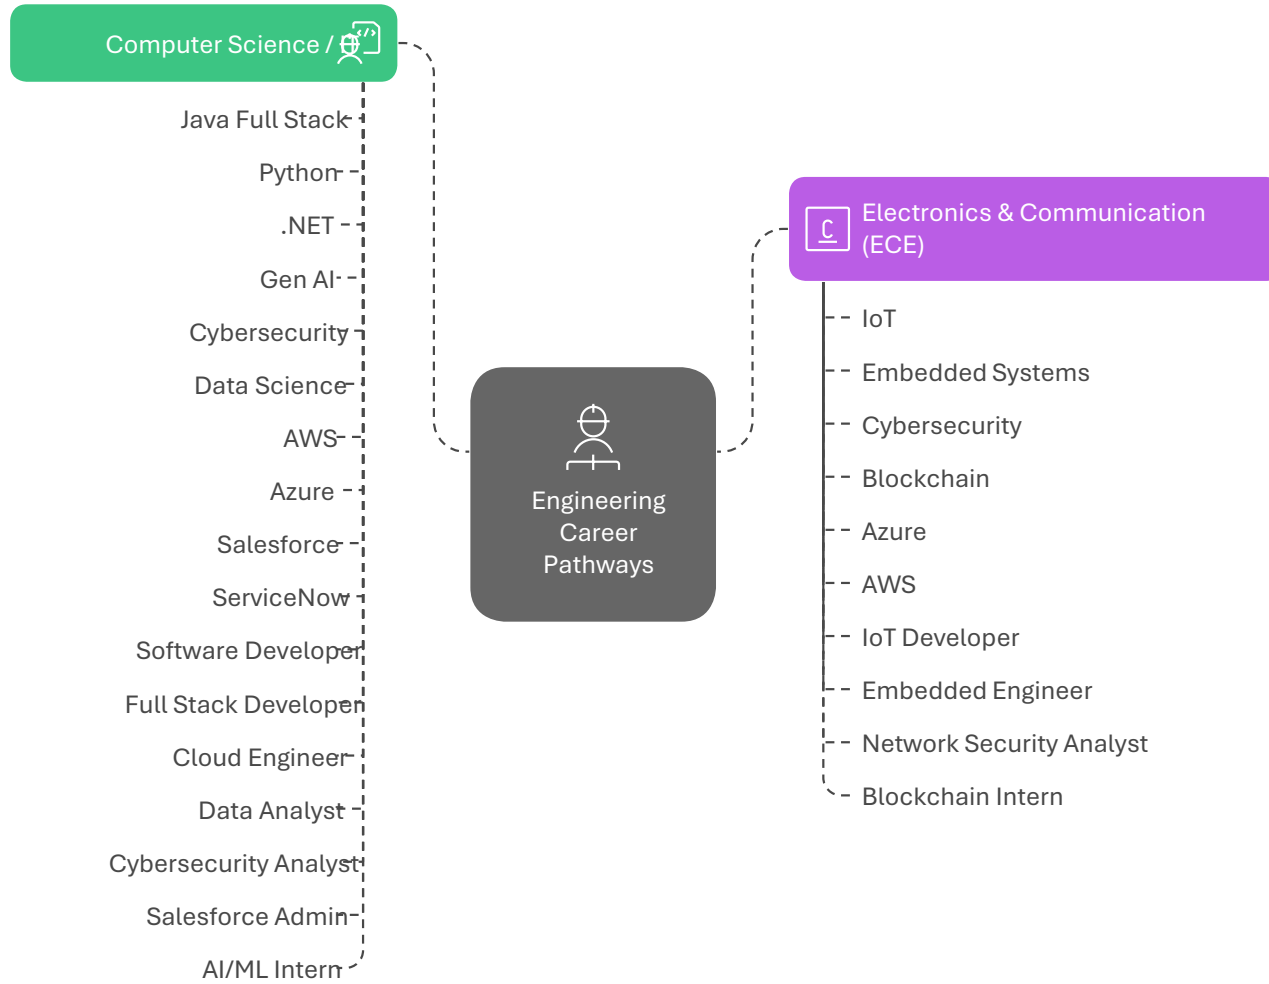

Employability Skills for Students of MBA , Engineering , Arts & Science

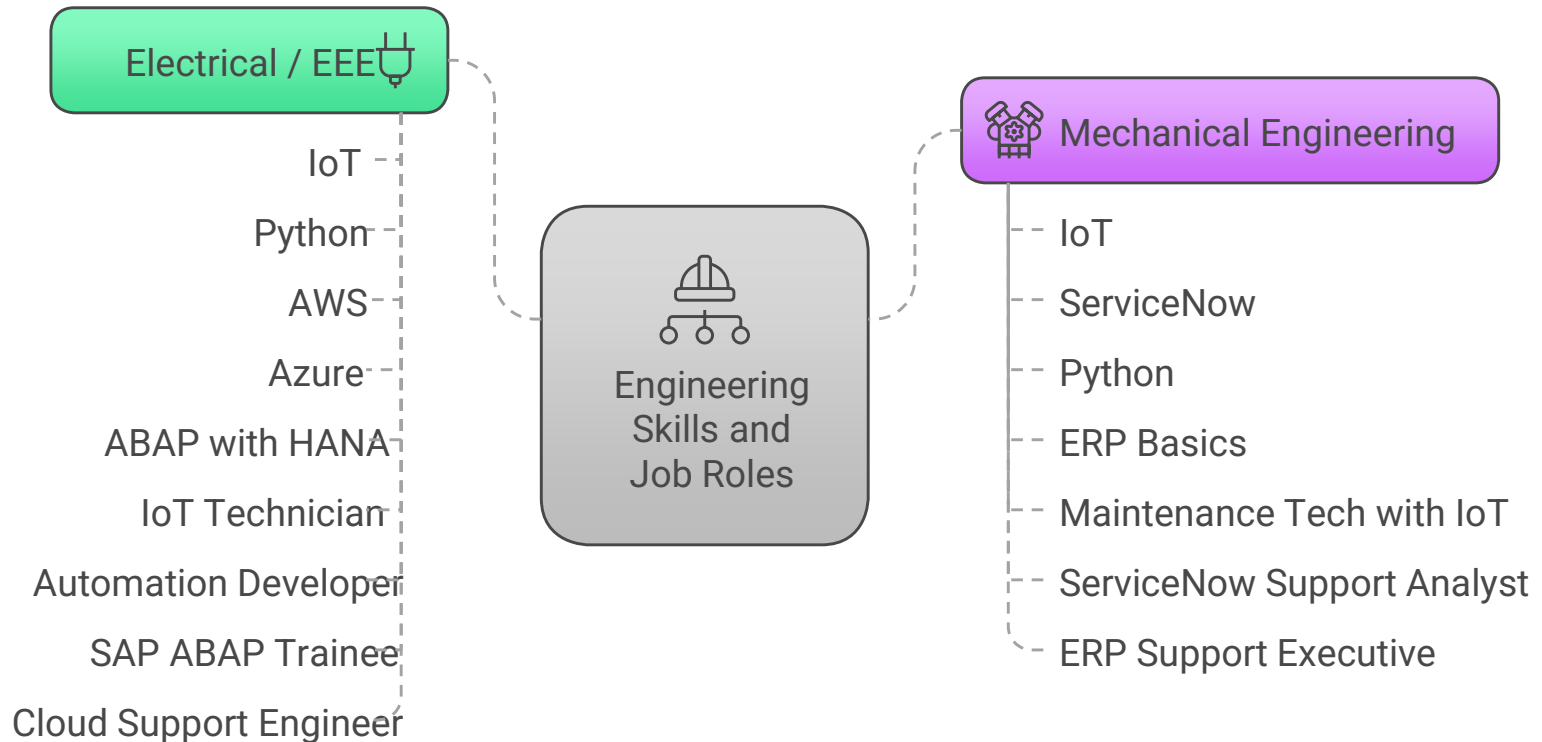

Engineering Career Pathways: Skills and Roles

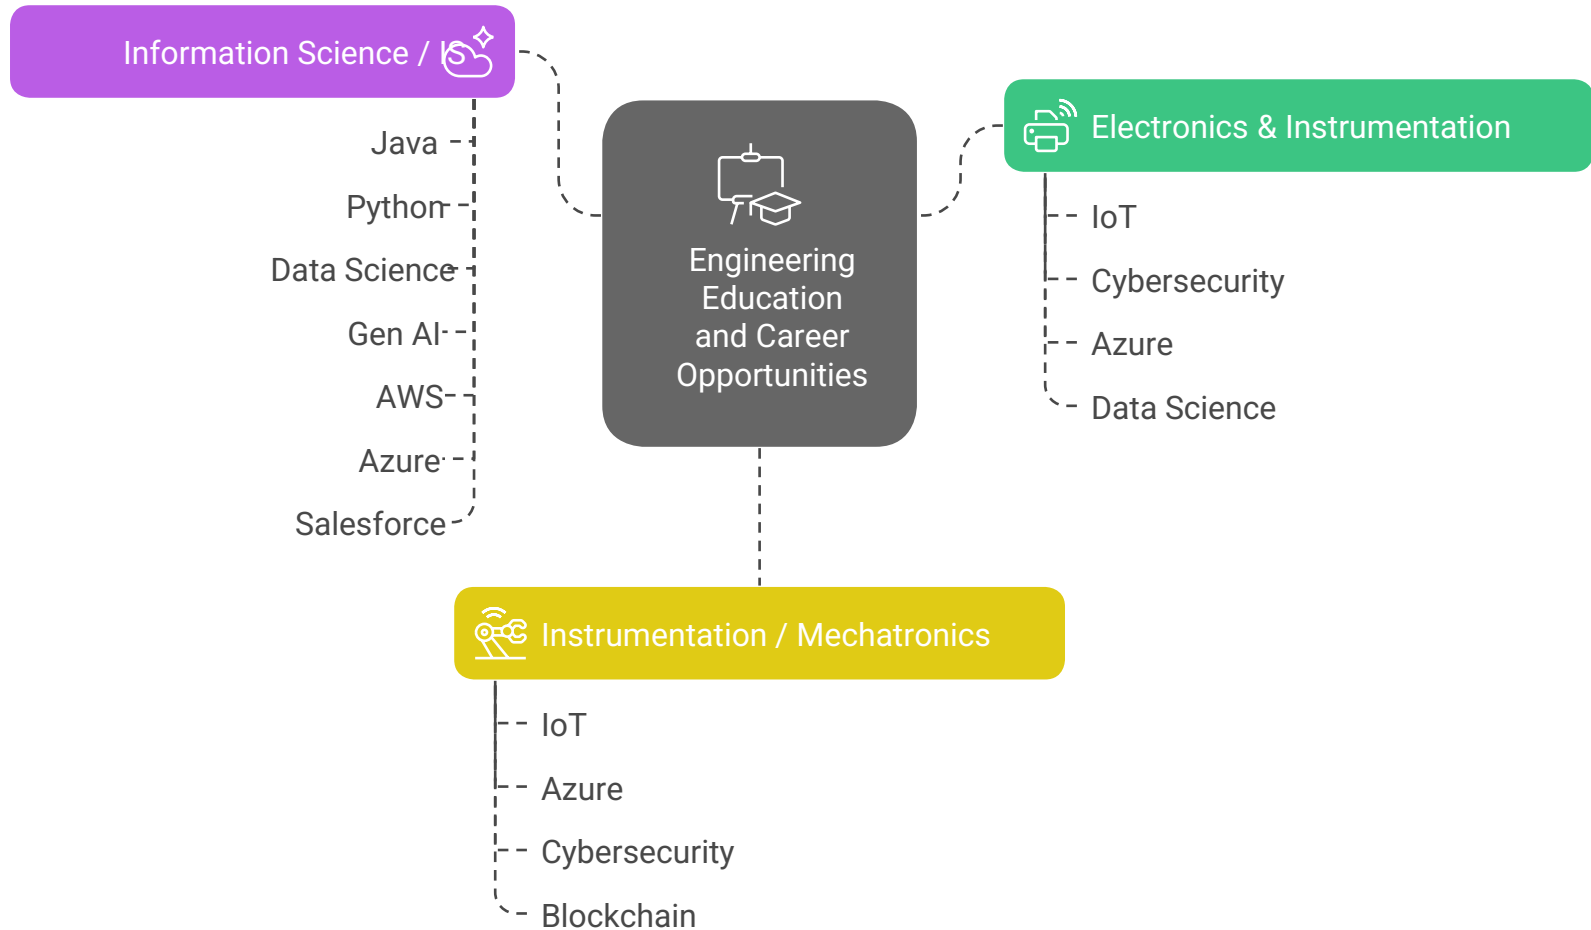

Engineering Skills and Job Roles

Engineering Education and Career Opportunities

MBA Courses with Global Certification

	 Recommended Course	 Duration (Hours)	 Certification	 Target Job
